

## eMazzanti Technologies Ascends List of World's Top MSPs

*Company improves 10 spots to 150<sup>th</sup> in the 2016 MSPmentor global ranking of the top 501 managed services providers*

Hoboken, NJ -- (Cision) May 24, 2016 – eMazzanti Technologies, a NYC area MSP and IT consultant, has improved its position on Penton Technology's 2016 MSPmentor501 list that ranks the world's top managed services providers (MSPs).

According to MSPmentor's May 19 announcement, eMazzanti Technologies improved 10 spots from their 2015 ranking to 150<sup>th</sup> on the 2016 MSPmentor 501 Global Edition, an annual ranking of the world's top 501 managed services providers. The MSPmentor501 ranking is the IT channel's largest and most comprehensive list of leading managed service provider (MSP) organizations worldwide.

"With the accelerated pace of business, companies are finding that managed services, including cloud and virtualization strategies make them more competitive and their data more secure," said Jennifer Mazzanti, President, eMazzanti Technologies, "eMazzanti's strong commitment to our customers' success is reflected in our improved ranking on the MSPmentor501."

To qualify for the 2016 MSP 501, candidates submitted confidential applications that included their 2015 financial results. For the first time, MSPs were also asked to provide verification of revenues from a certified financial professional.

The 2016 MSP 501 list and survey hinges on a revised methodology that seeks to improve the quality, transparency and applicability of the industry yardstick. The methodology relies on an algorithm that evaluates company strength based on revenue contributions from various business activities.

The companies on the 2016 MSP 501 list reported a combined total of \$9.82 billion in recurring revenue (based on 2015 results). "When we look at the numbers, we see several trends emerge," said Clarity Channel Advisors founder and CEO Jim Lippie. "There's definitely a rush to quality and scale, which has resulted in the strong getting stronger. We also see a de-emphasis on hardware sales and an embrace of all things cloud."

### eMazzanti's Award-winning Growth

To achieve its current status in the industry, eMazzanti Technologies, has generated consistent double-digit growth since its founding in 2001.
