

Imagine a persistent conversation inside your organization where inclusiveness and transparency help your whole workforce become more productive. There are exciting new ways to bring your teams together to achieve your goal. With the ability to respond and innovate more quickly, your teams can accelerate your company's successful digital transformation.

We invite you to discover the possibilities and join us to test drive Microsoft Teams at an Immersion Experience.

What is an Immersion Experience?

An Immersion Experience is a facilitated hands-on session that allows participants to test-drive Microsoft devices and solutions through simulated, everyday business scenarios. During an Immersion Experience, you and a handful of colleagues will experience the true impact of being a Microsoft-powered business. We'll provide an expert facilitator to walk you through business scenarios using the latest Microsoft online services and some of the newest devices on the market.

Each session is unique, as it is based on the interest of the session's participants, typically lasts 2 – 3 hours, and can be delivered either in-person or virtually.

How Does a Virtual Immersion Experience Work?

You can attend a virtual Immersion Experience from just about anywhere: all you need to participate is a reliable internet connection. Prior to your session, you'll receive a meeting request with instructions and a link to access a remote desktop loaded with the latest technology. On the day of your session you'll simply log in to join your Immersion Experience.

What to Expect

- No slides, demos or sales pitches
- Facilitated round table discussion and whiteboarding exercise
- Hands-on experience in a live cloud environment
- A fully customized session based on the interest, priorities and needs of you and your colleagues

What Will You Experience?

During your Immersion Experience you will explore how to:

- **Communicate more effectively:** get your team on the same page with group chat, online meetings, calling, and web conferencing.
- **Work better together:** collaborate on files with built-in Office 365 apps like Word, Excel, PowerPoint, and SharePoint.
- **Keep your team secure:** make it easier to work securely and maintain compliance without inhibiting your workflow.
- **Find information quickly:** find what you are looking for instantly using powerful, integrated search capabilities.
- **Get immediate productivity gains:** leave the Immersion Experience with time-saving skills you can instantly apply to your workday.

Immersion Experiences are a great way for business leaders to better understand the technology solutions they have access to and accelerate their digital transformation.
