

Jennifer Mazzanti Named 2020 NJBIZ Digi-Tech Innovators Award Recipient

Hoboken tech innovator and founder helps New Jersey service businesses drive revenue, increase productivity, and reduce costs with e365 offerings

Hoboken, New Jersey -- (Cision) November 24, 2020 - eMazzanti Technologies, a NYC area [managed services provider](#) (MSP), IT consultant, and cloud services company, is proud to announce that CEO and Co-founder, Jennifer Mazzanti, has been named a recipient of the 2020 Digi-Tech Innovators Award, presented by NJBIZ.

The NJ Digi-Tech Innovators Award showcases talented individuals who introduced significant innovations in the technology and digital space. Those innovations must have contributed significantly to the productivity and performance of their organizations. Jennifer and other Digi-Tech Innovators Award Honorees will be recognized in the November 30 issue of NJBIZ.

“We need to constantly innovate to help customers drive revenue, increase productivity, and reduce costs using technology to solve their business problems,” stated Mazzanti. “In the current environment, proactive business leaders deploy e365 solutions to keep the business growing.”

Innovation Builds Technology Showcase

Mazzanti was recognized for her ongoing leadership to deploy in her own business all the same [e365 remote work tools](#) that she recommends to B2B customers. Those technologies include Microsoft Teams for collaboration, [Microsoft Teams certified devices](#), the latest Microsoft operating systems, Office 365 and The Microsoft Azure Cloud.

Not only did the move improve customer service, but eMazzanti’s staff benefited from improvements in productivity and experience with those technologies. Consequently, eMazzanti’s facility is a showcase of the best of what the company has deployed for its customers during the pandemic.

To spot opportunities for innovation, Mazzanti says that her staff looks for common problems across the customer base and then tries to solve them. This year, every service business has had to modify the way it operates to continue to meet customer needs. Hence, the e365 offerings were first deployed internally then to customers.

Tech Innovation Facilitates Growth in 2020

As a tech innovator, Mazzanti says that her policies have contributed to 19 years of continuous growth without the requirement for numerous additional employees. According to Mazzanti, there's a definite bottom-line impact. This year, effective technology innovation has enabled the business and customers to operate remotely, even grow since March.

Notably, eMazzanti Technologies was recently ranked as the #1 [NYC Managed Services Provider](#) by Clutch, a Washington, D.C. based ratings and review platform. With industry-leading innovation and stable rates, eMazzanti's customers have no reason to look for another managed services provider.
